

Nipisihkopahk Elementary School

Academic Excellence, Cree History, Values and Traditions

I would like to say a huge thank you to Kurtis for helping our school with our Collaborative Response Model. I met with Kurtis prior to his presentation to explain what our school was struggling with in our own Collaborative Response Model. Kurtis provided our staff with step by step direction, strategies and resources to help with our pyramid of supports and collaborative team meetings. His presentation will be instrumental in helping us move forward and improve our Collaborative Response Model for years to come. After Kurtis left it has sparked numerous conversations and excitement not only with Administration but the entire staff. Our staff feels that with the tools and direction Kurtis provided us, we are confident and excited moving forward with our Collaborative Response Model. It is always a great pleasure to work with Kurtis and he is welcome at our school anytime.

ay hay
